An Overview

The L-P School District

The Loudonville-Perrysville Exempted Village School District encompasses 119 square miles in North Central Ohio, the heart of Mohican Country and the gateway to Amish Country.

The district serves students residing in portions of Ashland, Holmes, Knox, and Richland Counties.

The residents of the L-P School District are justifiably proud of the longstanding tradition of providing outstanding academic and athletic opportunities to the community's young people. The accomplishments of our students, both in the classroom and on the playing field, are reflections of their hard work and the support they receive from the community.

Community Involvement

Two-way communication is encouraged and utilized through organizations and committees such as Academic Boosters, Athletic Boosters, Budd School Partners in Education, FFA Alumni, McMullen Parents Association, L-P Alumni Association, L-P School Foundation, and Music Boosters.

These parent-teacher organizations and booster groups foster strong links between school and home, provide opportunities for parent involvement, and provide direct support through volunteers and fundraising efforts.

- Loudonville High School is fully accredited by the North Central Association of Colleges and Schools.
- In addition to the core academic subjects taught by their classroom teachers, elementary school children receive regularly scheduled instruction from specialists in music, art, physical education, library use, and computer technology.
- Specialists in reading, school psychology, gifted education, instructional technology, guidance and counseling, and special education are available to support the work of the classroom teachers.
- School-community liaison services connect students and families to appropriate mental health and other social service providers and natural support systems, which strengthen and empower families to support the student in becoming successful in school.
- The district maintains a fairly comprehensive program for special needs students. We believe all students can learn.
- The district operates its own electronic learning program for students in Grades 7-12: **Redbird A+ Learning On-line**.
- All students in Grades 7-12 receive a laptop computer. Students in Grades 1-6 are assigned an in class laptop.
- Components of an award winning music program include choral groups and marching and concert bands.
- An outstanding co-curricular program features ten boys' and ten girls' interscholastic sports as well as a variety of clubs and organizations. These co-curricular programs are considered an integral part of school life and student development.
- A comprehensive library/media and technology program serves as an important part of the instructional process, teaches students library use and research skills, reinforces the curriculum, and helps prepare students for life and work in the Information Age. Generous financial assistance for these efforts has been received from the Young Foundation, local service organizations and Ohio's School Net program. The Loudonville Public Li-

brary provides a variety of activities, services and materials to support the work of our students, teachers and parents.

- A group of alumni has established a school district Endowment Fund and the L-P School Foundation.
- R.F. McMullen School is a **National Blue Ribbon School** and a **Hall of Fame School**.
- Loudonville High School is recognized by *U.S. News & World Report* as a **Best High School**.
- Loudonville High School offers more than 30 semester hours of college classes on campus through the **College Credit Plus** program in addition to five nationally-accredited **STEM Engineering** courses and a competitive **Vex Robotics Team** which finished in the top 1% of 18,000 teams in the world, ending up 11th in our division at Worlds and making it to the quarterfinals match. Qualifying students have access to a regional **International Baccalaureate** program.
- Loudonville Junior High School offers **Gateway to STEM Engineering** classes.

Mission Statement:

The L-P Schools, in partnership with students, families and the community, will provide a safe and challenging educational environment where all students have the opportunity to reach their highest potential and become well-rounded citizens in a global society.
