

*New & Forgotten features*

**What's New in version 16**

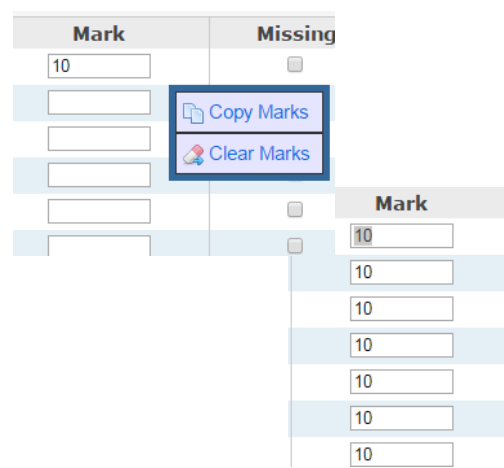

**Copy marks or Clear marks**

In each column there is an option to copy or clear mark. *(Not just those with standards based report cards)*

Simply type in the point and click Copy Marks, all students will receive the same mark. If you need to override one or two students simply type in their correct mark.

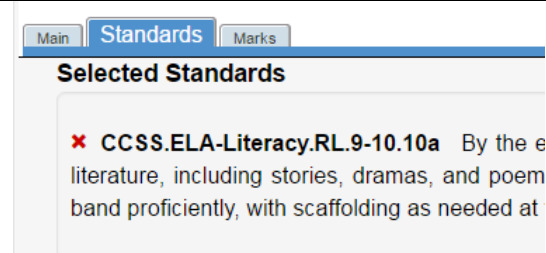

Clear Marks will remove all marks saved.

Don't forget to SAVE!!

**Academic Standards**

Standards are reading directly from the service provider so they are accurate and current. Standards are organized by subject. Multiple standards can be added to each assignment.

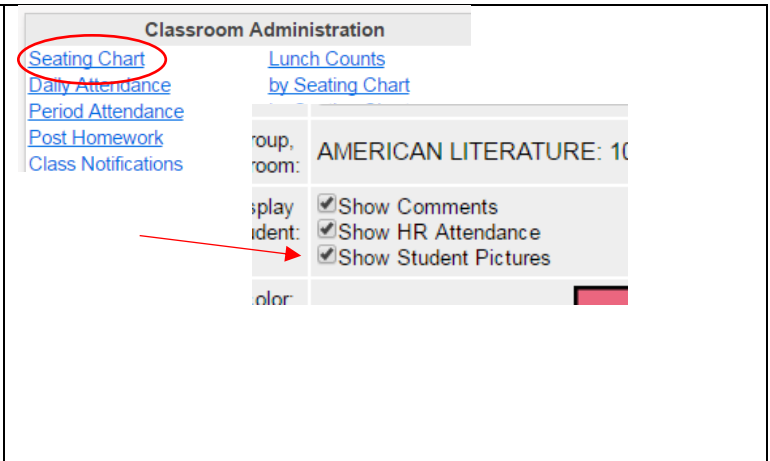

**Forgotten features**

**Seating charts with photos**

*(This feature may not be on for all districts)*

From the class Dashboard, click Seating Chart under Classroom Administration. When creating your setting chart, check Show Student Pictures. If this feature is on for your district your seating chart will generate with the students names and images.

*Note:* Homeroom attendance can also be taken daily from the seating chart by click on by Seating Chart next to Daily Attendance on the Dashboard.

**Class Notifications**

*(This feature may not be on for all districts)*

From the class Dashboard, click Class Notifications under Classroom Administration.

Email parents or students upcoming events such as “Chapter Test this Friday”

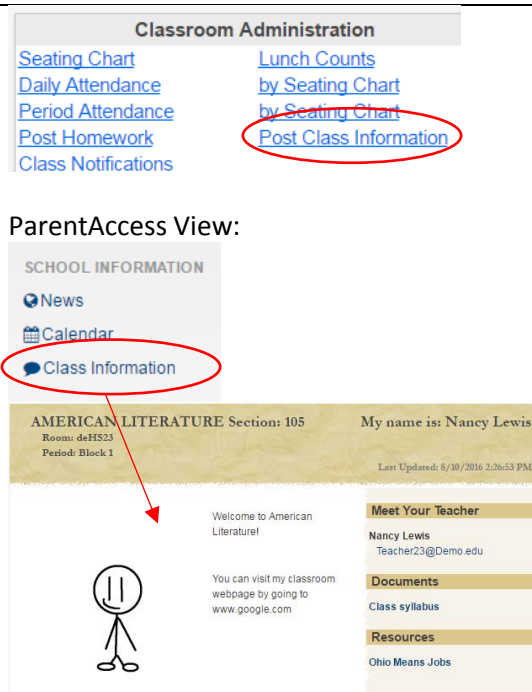

Type one message, choose parents, students or both, select the student or students then click Send. Individual messages will be sent to each email address in ParentAccess.

**Post Class Information**

From the class Dashboard, click Post Class Information under Classroom Administration.

Create a page name and Save. Now you can add any classroom information, links or attachments for parents or students to see in ParentAccess. Create one page and copy it to some or all of your other classes.

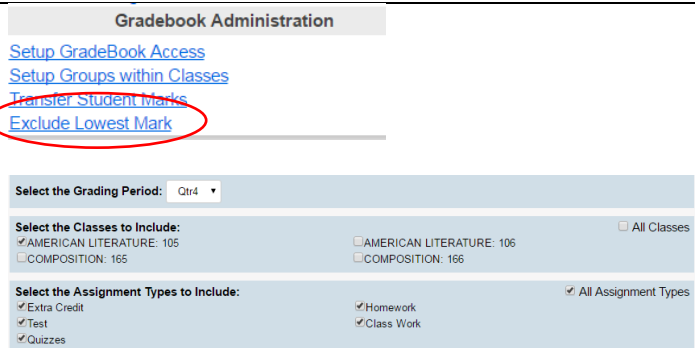

**Exclude Lowest Mark**

From the class Dashboard, click Exclude Lowest Mark under Gradebook Administration.

Select the grading period then the classes to include. You can select individual assignment types, for example if you want to exclude the lowest test grade and Test is one of your assignment types only select Test, but if you want to select the lowest grade the student had leave all assignment types selected. *Note:* If the tool is run multiple times for a grading period and a student's lowest mark changes, the old mark will be re-included and the new mark will be excluded.

This tool will not include marks which were manually excluded by the teacher.

See each student's mark that will be excluded. The average before and after the grade was excluded and whether the student's grade will increase or decrease. Click Exclude Marks to finalize.

### Student Search

From the Teacher Home Page or the Dashboard you will see the Student Search. Type in all or part of a student's name and it will find that student from within your gradebook.

The arrow will expand the student to be able to see contact information and personal information. Click on the student's name or click Student Profile. This will open the entire profile for that student in the Dashboard of the class they are assigned. Schools that have DataMap can also access the Student Roadmap.
